

This is a catalogue of all the projects of ABC company. In this catalogue you can find the specifications and features of different projects in the company. For each project, there are the following specifications for each project:

- Project Name
- Project Description
- Project Status (Active/Inactive)
- Project Objective
- Project Tracks
- Deliverables
- Timeline
- Project Team Members
- Client Stakeholders
- Location
- Key Topics

Each page in this catalogue includes the specifications of one project.

List of content:

1. Project Alpha: Solar Harmony
2. Project Beta: Tidal Triumph Initiative
3. Project Gamma: Wind Wanderer Venture
4. Project Delta: GeoGift Expedition
5. Project Epsilon: BioBurst Endeavor

Project Name: Project Alpha

| | |
|---------------------|--|
| Project Name | Project Alpha |
| Description | Solar Harmony Project: A large-scale solar farm initiative aimed at harnessing the sun's power to provide renewable energy for over 10,000 homes, reducing carbon emissions by 40% in the targeted region. |
| Status | Inactive |
| Objective | The objective is to achieve 85% efficiency. |
| Track | Track A |
| Deliverables | Deliverable 5 |
| Timeline | 12 months |
| Start Date | 01.02.2022 |
| End Date | 01.02.2023 |
| Team Members | Ian, Bob |
| Client Stakeholders | Stk 1, Stk 2 |
| Location | Los Angeles |

Stakeholder 1 – Project Alpha

| | |
|----------------------------|------------------------------|
| Project Name | Project Alpha |
| Stakeholder Name | Stk 1 |
| Role | Manager |
| Temperature | warm |
| Influence Score | 8 |
| Priorities | Budget |
| Interaction with Accenture | 3 meetings |
| Date of interaction | 01.03.2023 |
| Comments | Positive feedback on project |

Stakeholder 2 – Project Alpha

| | |
|----------------------------|-----------------------------|
| Project Name | Project Alpha |
| Stakeholder Name | Stk 2 |
| Role | Consultant |
| Temperature | Hot |
| Influence Score | 9 |
| Priorities | Timeline |
| Interaction with Accenture | 5 calls |
| Date of interaction | 01.05.2023 |
| Comments | Requested further documents |

Project Name: Project Beta

| | |
|---------------------|---|
| Project Name | Project Beta |
| Description | Tidal Triumph Initiative: An innovative project capitalizing on tidal wave energy, designed to offer a consistent power source for coastal communities, while also promoting marine conservation efforts. |
| Status | Active |
| Objective | The objective is to achieve 70% efficiency. |
| Track | Track B |
| Deliverables | Deliverable 2 |
| Timeline | 10 months |
| Start Date | 01.02.2022 |
| End Date | 01.01.2023 |
| Team Members | Ivan, Jack, Bob |
| Client Stakeholders | Stk 3, Stk 4 |
| Location | Washington |

Stakeholder 3 – Project Beta

| | |
|----------------------------|-------------------------------|
| Project Name | Project Beta |
| Stakeholder Name | Stk 3 |
| Role | VP |
| Temperature | Cold |
| Influence Score | 5 |
| Priorities | Quality |
| Interaction with Accenture | 1 workshop |
| Date of interaction | 01.04.2023 |
| Comments | Concerned about project scope |

Stakeholder 4 – Project Beta

| | |
|----------------------------|--------------------------------|
| Project Name | Project Beta |
| Stakeholder Name | Stk 4 |
| Role | Analyst |
| Temperature | Normal |
| Influence Score | 7 |
| Priorities | Reporting |
| Interaction with Accenture | 2 calls |
| Date of interaction | 01.07.2023 |
| Comments | Happy with the progress so far |

Project Name: Project Gamma

| | |
|---------------------|--|
| Project Name | Project Gamma |
| Description | Wind Wanderer Venture: An expansive wind turbine installation across open plains, striving to produce energy with minimal environmental impact, and expected to generate power equivalent to burning 50,000 tons of coal annually. |
| Status | Active |
| Objective | The objective is to achieve 50% efficiency. |
| Track | Track C |
| Deliverables | Deliverable 3 |
| Timeline | 20 months |
| Start Date | 01.02.2022 |
| End Date | 01.01.2024 |
| Team Members | Susan, Jack |
| Client Stakeholders | Stk 5, Stk 6 |
| Location | Boston |

Stakeholder 5 – Project Gamma

| | |
|----------------------------|-------------------------------|
| Project Name | Project Gamma |
| Stakeholder Name | Stk 5 |
| Role | Engineer |
| Temperature | Warm |
| Influence Score | 4 |
| Priorities | Delivery |
| Interaction with Accenture | No interaction |
| Date of interaction | 01.06.2023 |
| Comments | Asked about technical details |

Stakeholder 6 – Project Gamma

| | |
|----------------------------|---------------------------|
| Project Name | Project Gamma |
| Stakeholder Name | Stk 6 |
| Role | Director |
| Temperature | Hot |
| Influence Score | 10 |
| Priorities | Design |
| Interaction with Accenture | 1 meeting |
| Date of interaction | 01.11.2022 |
| Comments | Concerned about team size |

Project Name: Project Delta

| | |
|---------------------|---|
| Project Name | Project Delta |
| Description | GeoGift Expedition: A deep dive into geothermal energy extraction, tapping into the Earth's natural heat in geologically active regions, promising not only sustainable energy but also reduced dependency on fossil fuels. |
| Status | Active |
| Objective | The objective is to achieve 90% efficiency. |
| Track | Track A |
| Deliverables | Deliverable 4 |
| Timeline | 21 months |
| Start Date | 01.01.2021 |
| End Date | 01.01.2023 |
| Team Members | Susan, Emily |
| Client Stakeholders | Stk 7, Stk 8, Stk 9 |
| Location | Washington |

Stakeholder 7 – Project Delta

| | |
|----------------------------|------------------------------|
| Project Name | Project Delta |
| Stakeholder Name | Stk 7 |
| Role | Engineer |
| Temperature | Warm |
| Influence Score | 9 |
| Priorities | Staffing |
| Interaction with Accenture | No interaction |
| Date of interaction | 01.06.2022 |
| Comments | Needs more financial details |

Stakeholder 8 – Project Delta

| | |
|----------------------------|-----------------------------|
| Project Name | Project Delta |
| Stakeholder Name | Stk 8 |
| Role | Consultant |
| Temperature | Hot |
| Influence Score | 8 |
| Priorities | Risks |
| Interaction with Accenture | 4 meetings, 2 calls |
| Date of interaction | 01.11.2021 |
| Comments | Asked about risk management |

Stakeholder 9 – Project Delta

| | |
|----------------------------|-----------------------------------|
| Project Name | Project Delta |
| Stakeholder Name | Stk 9 |
| Role | Analyst |
| Temperature | Hot |
| Influence Score | 10 |
| Priorities | Features |
| Interaction with Accenture | 1 meeting, 2 workshops |
| Date of interaction | 01.10.2022 |
| Comments | Interested in additional features |

Project Name: Project Epsilon

| | |
|---------------------|---|
| Project Name | Project Epsilon |
| Description | BioBurst Endeavor: A project focused on turning organic waste into energy, utilizing advanced bio-reactors to convert city waste into usable gas, presenting an eco-friendly solution to urban waste management and energy production challenges. |
| Status | Inactive |
| Objective | The objective is to achieve 20% efficiency. |
| Track | Track B |
| Deliverables | Deliverable 6 |
| Timeline | 11 months |
| Start Date | 01.02.2022 |
| End Date | 01.01.2023 |
| Team Members | Eve, Frank |
| Client Stakeholders | Stk 10, Stk 11 |
| Location | Houston |

Stakeholder 10 – Project Epsilon

| | |
|----------------------------|-------------------------------|
| Project Name | Project Epsilon |
| Stakeholder Name | Stk 10 |
| Role | Manager |
| Temperature | Cold |
| Influence Score | 10 |
| Priorities | Quality |
| Interaction with Accenture | 10 calls |
| Date of interaction | 01.01.2023 |
| Comments | Concerned about project scope |

Stakeholder 11 – Project Epsilon

| | |
|----------------------------|--------------------------------|
| Project Name | Project Epsilon |
| Stakeholder Name | Stk 11 |
| Role | Analyst |
| Temperature | Normal |
| Influence Score | 6 |
| Priorities | Reporting |
| Interaction with Accenture | 2 meetings |
| Date of interaction | 01.02.2023 |
| Comments | Happy with the progress so far |
